

# The Journal of Grey System

## Contents

### Communication

#### **The Morbidity Problem of GM(2,1) Model Based on Vector Transformation**

Xinping Xiao, Jinhai Guo 1

#### **The Restriction Mechanism on R&D Result Transfer Performance for Chinese Universities Based on Grey Incidence Analysis and Optimized GM(1,1)**

Lirong Jian , Hanzi Yu 12

#### **Two-factor Grey Relational Analysis Method of the Evaluation on Fairness of Two-dimensional Water Right Allocation**

Jiefang Wang 23

#### **On the Admissible Region of Non-homogeneous Class Ratio for Grey Resource Model**

ZhengXin Wang 32

#### **Study on Construction of Whitenization Weight Function with Interval Grey Number and Its Solving Algorithm**

Junjie Wang, Yaoguo Dang, Xuemei Li 40

#### **Generalized Admissible Region of Class Ratio for Fractional Accumulated GM(1,1) Model**

Shuhua Mao, Mingyun Gao, Jianghui Wen, Xinwei Nie 55

#### **A Novel Interval Grey Number Prediction Model Given Kernel and Grey Number Band**

Bo Zeng, Chuan Li, Xian-Jun Long, Yao Xiong 69

**Application of Improved Failure Mode Recognition Algorithms and GM(1,1) Model on Fatigue Lifetime Prediction of Truss Structure**

Yuan Li, Guiming, Mei, Jingwei Gao, Chao Jiang, Jiehong Yuan 85

**Appraising Marketing Performance for Insurance Businesses through Improved Fuzzy Modified GRA**

Shang-Yu Chen, Chung-Cheng Lu 96

**New Strengthening Buffer Operators Based on Adjustable Intensity and Their Applications**

Jiefang Liu, Sifeng Liu, Zhigeng Fang 117

**Author Guidelines**
