

The Journal of Grey System

Contents

The Feasibility of Fractional Power in Grey Generating for Error Analysis in GM(1,1) Model
Kun-Li Wen, Hwei-Chi Wen 1

Grey Option Prioritization for the Graph Model for Conflict Resolution
Shinan Zhao, Haiyan Xu 14

Prediction of SO₂ Emission from Industrial Sector in Shanghai City based on Novel Discrete Grey Model
Jiefang Liu, Yunrui Guo, Bingjun Li, Pumei Gao,
Jian Liu, Wanqin Zhang, Mingjun Jiao 26

Gaussian Barebones Differential Evolution with Grey-based Mutation Strategy
Ming-Feng Yeh, Shih-Chang Wang 36

Variable Precision Rough Set Model and Application Based on Grey Similarity Incidence Relationship
Yong Liu, Xunian Yin, Bingru Cao, Wuyong Qian 45

Grey Forecasting Model with Polynomial Term and Its Optimization
Dang Luo, Baolei Wei 58

A Review of Some Modified Grey Relational Analysis Models
Ting Kuo 70

Decision Making Method for Dual Uncertain Information based on Grey Incidence Analysis and Grey Relative Entropy Optimization
Wen Song, Jianjun Zhu, Shitao Zhang, Ye Chen 78

**Evaluating Raw Milk Quality by an Optimized Grey Cluster
Evaluation Model in China**

Dafang Li, Haiyan Wang, Run Tang, Rong Yu, Yuehu Wang 99

Generalized GM(1,1) Model and Its Application

Maolin Cheng, Minyin Xiang 110

Book Review

Grey Data Analysis:Methods, Models and Applications

E. K. Zavadskas 123

Communications

A Book on Grey System Ranked No.1 in Top Cited Books
