

The Journal of Grey System

Contents

- A historic Review of Grey Forecasting Models**
Naiming Xie, Ruizhi Wang 1
- Estimation of the Competitive Relationships between Amazon, Alibaba, and Suning Based on a Grey Tripartite Lotka-Volterra Model**
Lingling Pei, Zhengxin Wang, Dejun Ye 30
- Improved OCRA Method Based on the Use of Interval Grey Numbers**
Dragisa Stanujkic, Edmundas Kazimieras Zavadskas,
Sifeng Liu, Darjan Karabasevic, Gabrijela Popovic 49
- Chiller Fault Diagnosis Based on Grey Similitude Relation Analysis**
Zhanwei Wang, Zhiwei Wang, Zengfeng Yan 61
- Forecasting Nonlinear Time Series Using an Adaptive Nonlinear Grey Bernoulli Model: Cases of Energy Consumption**
Ying-Yuan Chen, Guo-Wei Chen, Ai-Huei Chiou, Ssu-Han Chen 75
- Identification for Key Functional Features of Middle-Level Managers Based on GRA Method: a Case Study of Logistics Industry**
Yi Zhang, Lingling Pei, Hui Xu 94
- A Novel Multi-Variable Grey Prediction Model and Its Application in Sino-Russian Timber Trade Volume Forecasting**
Yaping Li, Zhen Chen, Liangyan Tao, Sifeng Liu, Xiaojun Guo 109

The GMC(1, n) Model with Optimized Parameters and Its Application

Xin Ma, Zhibin Liu 122

Structure Parameters Optimization of Explosively Formed Penetrator Based on Grey System Theory

**Jianfeng Liu, Yuan Long, Chong Ji, Dong Xiang,
Quanjun Xu , Mingshou Zhong 139**

Grey Prediction Model of Interval Grey Numbers Based on a Novel Compound Function Transformation

Jing Ye, Yaoguo Dang, Junjie Wang, Yingjie Yang 155

Communications

Professor Sifeng Liu Selected to Be One of the 10 Shortlisted Promising Scientists in the MSCA 2017 Prizes

GS Research Team 177

Call for papers of 2018 GSUA

GSUA 180
