

The Journal of Grey System

Contents

Nonlinear Fractional Order Grey Model of Urban Traffic Flow Short-Term Prediction

Shuhua Mao, Xianpeng Wang, Mingyun Gao, Xiping Xiao, Qiong He 1

Identifying Influential Climate Factors of Land Surface Phenology Changes in Songnen Plain of China Using Grid-based Grey Relational Analysis

Shuai Chang, Fang Huang, Jianjun Zhao, Yu Zhang 18

A Novel Grey Residual Modification Model Using Neural Networks

Wen-Bao Wang, Yi-Chung Hu 34

An Ensemble Telecom Customers Clustering Model based on Grey Incidence and K-Means

Chuanmin Mi, Yue Lu, Sifeng Liu, Zhigeng Fang, Zhipeng Zhou 47

Research on Multicollinearity in the Grey GM(1,N) Model

Xiping Xiao, Shusheng Cheng 60

A Social TopN Recommendation Scheme Based on Grey Forecast Model

Yunpeng Xiao, Keyi Zhang, Ming Xu, Yanbing Liu 78

On the Effectiveness of GM(1,1) Model with Different Sequence Sizes: An Evidence from Random Simulations

Ding Chen, Zhigeng Fang, Chaoqing Yuan, Sifeng Liu 97

A New Multivariate Grey Incidence Model and Its Application to Economic Growth Driving Analysis

Zhen Liu, Yaoguo Dang, Yi Xiao 116

A Study of the Strategic Alliance for Vietnam Domestic Pharmaceutical Industry: A Dynamic Integration of A Hybrid DEA and GM (1,1) Approach

Nhu-Ty Nguyen, Thanh-Tuyen Tran 134

Monitoring of Deformations in Open-pit Mines and Prediction of Deformations with the Grey Prediction Model
Levent Taşçı, Muhammet Tunçez 152
