

Top Cited Papers of The Journal of Grey System(2013-2014)

1. Not Black Not even White Definitely Grey Economic Systems

Author: Delcea, Camelia

Vol. 26, No. 1, pp. 11-25, 2014

2. Knowledge Integration of Cluster Networks based on Grey Relational Analysis Knowledge Similarities

Authors: Liu Hong; Wang Wenping; Zhang Qishan

Vol. 25, No. 1, pp. 12-23, 2013

3. A Linguistic Evaluation Model Considering Grey Information and Its Application on Complex Product Supplier Performance

Authors: Mi, Chuanmin; Ma, Zhenzhen; Ding, Ziqi

Vol. 25, No. 3, pp. 34-43, 2013

4. Grey Number Sequence Forecasting Approach for Interval Analysis: A case of China's Gross Domestic Product Prediction

Authors: Xie, Naiming; Liu, Sifeng; Yuan, Chaoqing

Vol. 26, No. 1, pp. 45-58, 2014

5. Study on the Prediction of Complex Equipment MTBF DGM((P\q))(1,1) Model Based on the Small Sample

Authors: Chen, Ding; Fang, Zhigeng; Wu, Lifeng

Vol. 25, No. 3, pp. 105-114, 2013

6. Application of GM Model and GRA on the Evaluation for Financial Burden of Patients at Hospitals in China by PPP Model

Authors: Li, Xiaoning; Liao, Xinbo; Zhang, Xin

Vol. 25, No. 2, pp. 112-128, 2013

7. Identifying Key Influential Factors of Transforming Regional Science and Education Advantages into Industrial Advantages by Grey Relational Analysis

Authors: Wang, Wenping; Cao, Qingfang; Huang, Xinhuan

Vol. 25, No. 1, pp. 63-75, 2013

8. Representation of Geometrical Objects with Grey Systems

Authors: Yang, Yingjie; Liu, Sifeng

Vol. 25, No. 1, pp. 32-43, 2013

9. Generalized Grey Relation Analysis Based on Approximate True Starting Points

Authors: Yuan, Chaoqing; Yang, Yingjie; Shui, LuLu

Vol. 25, No. 4, pp. 71-78, 2013
