# INTERNATIONAL PEST CONTROL

The official publication for

Confederation of European  
Pest Control Associations

Federation of Asian &  
Oceania Pest Managers  
Associations

Publication partner for

Bed Bug Foundation

## CONTENTS

- 236 International pest news
- 252 EPIBLOC: toxicant-sterilant for rodent control
- 253 Media hysteria, lack of knowledge or simply the next challenge?
- 254 Landscape change increases insecticide use in U.S. Midwest
- 255 Parasite uses the power of attraction to trick rats into becoming cat food
- 256 Mosquitoes 'disappearing' in some parts of Africa
- 258 ICUP 2011, Ouro Preto, Brazil
- 262 Rats instinctively avoid compound in carnivore urine
- 263 Researchers identify how insects resist Bt pesticides
- 264 Killing glyphosate-resistant weeds with... glyphosate
- 266 A better test for a potato pest
- 267 Saponins protect plants from insect infestation
- 267 Flower power gives caterpillars the blues
- 268 Major breakthrough on how viruses infect plants
- 269 Seed mixtures and insurance pest management: future norm in the corn belt?
- 270 New Improved InjectorDos for easier dispatch of Japanese Knotweed
- 272 Cuprous oxide the fungicide that 'fits all' for citrus  
Dr Terry Mabbett
- 278 Diamondback moth host-parasite interaction unraveled - important implications for global pest control
- 279 Microorganisms such as *Fusarium* travel through the air; it would be good to know how and where
- 280 *Tuta absoluta*, tomato leaf miner infestation – four years on
- 282 Warming worms - potato pest research
- 283 Scientists make turfgrass safer for animals but deadly for insects
- 284 Testing fumigant films that keep the air clean
- 285 New framework ensures swift felling of infected trees
- 285 Fungus from California suspected of killing cypress trees worldwide
- 287 Books

## COVER

To improve WEPP (Water Erosion Prediction Project) equations, agricultural engineer Dennis Flanagan (left) and soil scientist Stanley Livingston use a green dye to measure flow velocity and observe (pesticide) runoff patterns resulting from simulated rainfall.
