

An international journal covering the management of weeds, pests and diseases through chemistry, biology and biotechnology

OUTLOOKS ON PEST MANAGEMENT

CONTENTS – December 2010

- 254 **Editorial** – *Plant Pathogenic Fungi as Weapons* – P E Russell
- 257 **Global Perspective on Protective Clothing for Pesticide Operators** – Anugrah Shaw outlines the importance of the correct use of protective clothing when handling pesticides and describes the move towards the establishment of global regulations
- 261 **Regulatory news** – *new registrations, environmental effects and withdrawals*
- 265 **Natural Pest Control: Capturing the Benefits for Australian Cotton Growers** – Nancy Schellhorn & Louise Lawrence emphasise the importance of natural insect parasites and predators and describe work designed to optimise their activity in major crops
- 268 **Gibberellin Signalling – New Opportunities for Crop Management** – Peter Hedden, Wilhelm Rademacher & Andy Phillips describe recent advances in the understanding of gibberellin action and how these new discoveries may lead to the development of more effective and selective growth retardants
- 274 **Biotechnology news** – *developments in molecular biology and genomics*
- 277 **Managing Feral Pigs Across Australia** – Dr David Dall outlines policy and practice initiatives intended to improve the management of feral pigs in Australia
- 280 **How Valuable is Glyphosate to UK Agriculture and the Environment?** – Sarah K. Cook, Sarah C. Wynn & James H. Clarke consider the contribution glyphosate makes to cost-effective agriculture and biodiversity in the UK
- 285 **R&D news** – *reports on new products, new applications and new uses*
- 288 **12th IUPAC Congress of Crop Protection Chemistry, Melbourne July 4–8 2010** – Don Wauchope
- 289 **PestWorld** – Frances McKim highlights some of the key papers that were presented at PestWorld 2010
- 292 **Company news** – *reports on mergers, acquisitions, collaborations and sales*
- 295 **Crop World 2010** – *The Highlights as Selected by Alan Dewar, Graham Matthews and Leonard Copping*
