

An international journal covering the management of weeds, pests and diseases through chemistry, biology and biotechnology

OUTLOOKS ON PEST MANAGEMENT

CONTENTS – June 2012

- 98 **Editorial** – *A Question of Common Sense* – Ian Denholm
- 100 **Crop Protection in Northern Britain: A Review of the Recent Dundee Conference** – Alan M. Dewar
- 102 **Overview of a National Summit on Strategies to Manage Herbicide-resistant Weeds** – Nancy Ragsdale
- 104 **Regulatory News** – *new registrations, environmental effects and withdrawals*
- 108 **The Pros and Cons of Using Irradiation for Phytosanitary Treatments** – Raymond J. C. Cannon, Guy J. Hallman & Carl Blackburn
- 115 **Innovation: Changing Trends in Herbicide Discovery** – Hansjoerg Kraehmer describes changes in herbicide research philosophy within the last 50 years
- 119 **Biotechnology News** – *developments in molecular biology and genomics*
- 122 **The International Union of Pure and Applied Chemistry and Crop Protection Chemistry** – John B. Unsworth
- 125 **Bed Bugs (*Cimex Lectularius*) and Bat Bugs (Several *Cimex* Species): A Confusing Issue** – Jerome Goddard, Gerald T. Baker, Flavia G. Ferrari & Claudenir Ferrari
- 128 **R&D News** – *reports on new products, new applications and new uses*
- 132 **Rodenticides: Warfarin, still a good management tool** – Richard M. Poché & David M. Poché
- 136 **Biopesticides: The Next Line of Defense for Resistance Management** – Denise C. Manker describes the utility of biopesticides in creating viable resistance management strategies
- 140 **Company News** – *reports on mergers, acquisitions, collaborations and sales*
- 144 **California's Program to Protect Against Pests Entering the State at the Borders** – Mark Stirling
- 148 **Calendar**

COVER PHOTOS: Cotton bollworm (*Helicoverpa zea*) (Photo by Scott Bauer) and *Aedes* (*Ochlerotatus*) sp. mosquito on human skin both reproduced courtesy of USDA-ARS; Cocoa showing both frosty pod rot (*Moniliophthora roreri*) and witches' broom (*M. pernicioso*) on the same branch (Ecuador) (Photo by Roy Batemen); Unsprayed strip in sugarbeet showing poppies (*Papaver* spp.) (Photo by Alan Dewar)
