

An international journal covering the management of weeds, pests and diseases through chemistry, biology and biotechnology

# OUTLOOKS ON PEST MANAGEMENT

## CONTENTS – December 2018

- 242 **Editorial: Dawn of the PBO-Pyrethroid Long Lasting Net – Light at Last** – *Mark Rowland & Natacha Protopopoff*
- 245 **Special Issue of Outlooks Focussing on Glyphosate** – *Ken Pallett*
- 247 **Glyphosate – How it Became a Once in a Hundred Year Herbicide and Its Future** – *Stephen O. Duke, Stephen B. Powles & R. Douglas Sammons*
- 252 **Regulatory News** – *new registrations, environmental effects and withdrawals*
- 255 **The Importance of Glyphosate in Non-GM Settings** – *Todd A. Gaines*
- 258 **Protecting Glyphosate Efficacy on Combinable Crops: Resistance, Residues and Responsible Use** – *James Clarke*
- 262 **Biotechnology News** – *developments in molecular biology and genomics*
- 266 **The Environmental Fate and Ecotoxicity of Glyphosate** – *Robin Blake & Ken Pallett summarise the environmental fate and ecotoxicity characteristics of glyphosate arising from regulatory studies used for registration purposes in the EU and other parts of the world including the USA*
- 270 **The Complexities of Regulatory Toxicology** – *Professor Sir Colin Berry*
- 274 **R&D News** – *reports on new products, new applications and new uses*
- 277 **Engineered Crop Tolerance to Glyphosate and Its Impact on the Use of the Herbicide** – *Ken Pallett reviews the history and background of the introduction of crops engineered to be tolerant to glyphosate, briefly addresses the impact of these crops on the use of glyphosate and the future perspectives for this weed management technology*
- 282 **Book Review**
- 284 **Company News**
- 287 **BCPC Congress 2018**

COVER PHOTOS: Cotton bollworm (*Helicoverpa zea*) (Photo by Scott Bauer) and *Aedes (Ochlerotatus) sp.* mosquito on human skin both reproduced courtesy of USDA-ARS; Cocoa showing both frosty pod rot (*Moniliophthora roreri*) and witches' broom (*M. perniciosa*) on the same branch (Ecuador) (Photo by Roy Batemen); Unsprayed strip in sugarbeet showing poppies (*Papaver spp.*) (Photo by Alan Dewar)
